

# Pricor Technologies

Northwest's trusted B2B sewer contractor.

## Offer more to your customers...

Pricor Technologies is built around helping plumbers and plumbing contractors grow their business by adding capacity to their current service offering. Our personnel and equipment can be utilized to extend your range of services. We provide capacity and ability so you don't need to purchase more equipment and hire more employees.

### Safety First

We only hire professional equipment operators, laborers, and truck drivers. All of our employees have received competent training and take part in our weekly safety meetings.

### B2B

We work exclusively business to business and we are not interested in competing with you. All of our business comes through partnerships with plumbers and contractors.

### Support

We help you extend your service offerings beyond typical plumbing services. All of our efforts revolve around making sure you capture and retain every customer that comes to you: Never say no to a call again.

## Meet our team

We have a dedicated staff with years of combined experience.

### Jason Pritchard GENERAL MANAGER

Jason has been in the business for years and knows how to get results. His main job is make sure your job is taken care of and that your customers are satisfied with the results.

### Jeffrey Jones CEO

There's no job too big or small for Jeffrey. He loves to handle it all. He takes great pride in forming lasting relationships and he isn't satisfied unless his clients are satisfied.

### Jasper Rodenberg LEAD FOREMAN

Jasper started working in the industry in 1994. He's been lead on hundreds of residential and commercial jobs. He prides himself on a professional, knowledgeable, and honest team.

### Ron VanDyke ESTIMATOR

Ron's had his hand in every aspect of construction since he started on the tools fresh out of high school. Over the last 15 years he's focused solely on the plumbing industry.
