

DESIGN SERVICES

Kriste Michelini Interiors offers residential interior design services throughout San Francisco, Silicon Valley, Marin and the Wine Country. Our streamlined approach simplifies the process of designing a home or entire house. We manage each project from concept to completion; handling order procurement and installations, with a keen eye for detail and efficiency.

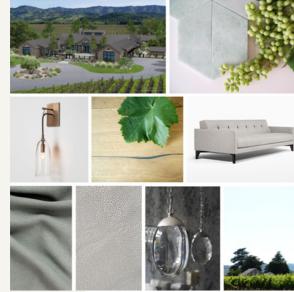

THE VISION

Our overarching goal, from start to finish, is to create an integrated design that meets our clients' needs in welcoming and innovative ways. We begin the process by learning about your dreams and visions for your project, and then we meet to discuss your design inspirations and to photograph your space. If appropriate, we will involve your architect and other consultants. We'll define the project scope, timeline, and budget, and prepare a work agreement.

THE DESIGN

The creative work begins with the development of client mood boards and interior floor plans. We then create and present palette options, which include fabrics, floor materials, paint selections, and hard finishes. Finally, with your aesthetic and functional preferences at top of mind, we present furniture, art, cabinetry, rug and lighting selections.

THE PROCESS

Our overarching goal, from start to finish, is to create an integrated design that meets our clients' needs in welcoming and innovative ways. We begin the process by learning about your dreams and visions for your project, and then we meet to discuss your design inspirations and to photograph your space. If appropriate, we will involve your architect and other consultants. We'll define the project scope, timeline, and budget, and prepare a work agreement.

THE RESULT

The creative work begins with the development of client mood boards and interior floor plans. We then create and present palette options, which include fabrics, floor materials, paint selections, and hard finishes. Finally, with your aesthetic and functional preferences at top of mind, we present furniture, art, cabinetry, rug and lighting selections.
